

1.安装了pycharm下载pycharm后需要打开软件才能正确安装。

pycharm有不同操作系统的

Download PyCharm

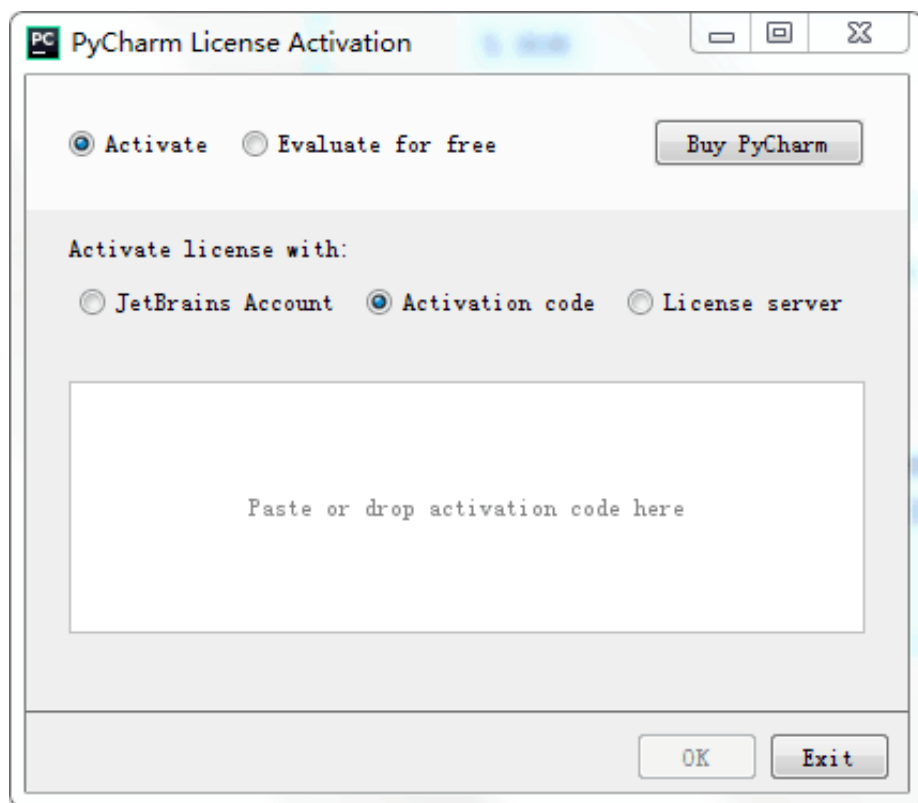

Windows

macOS

Linux

在网址上windows操作系统又分成两种一种是professional另一种是community

如果下载好professional版本的朋友charm就需要注册

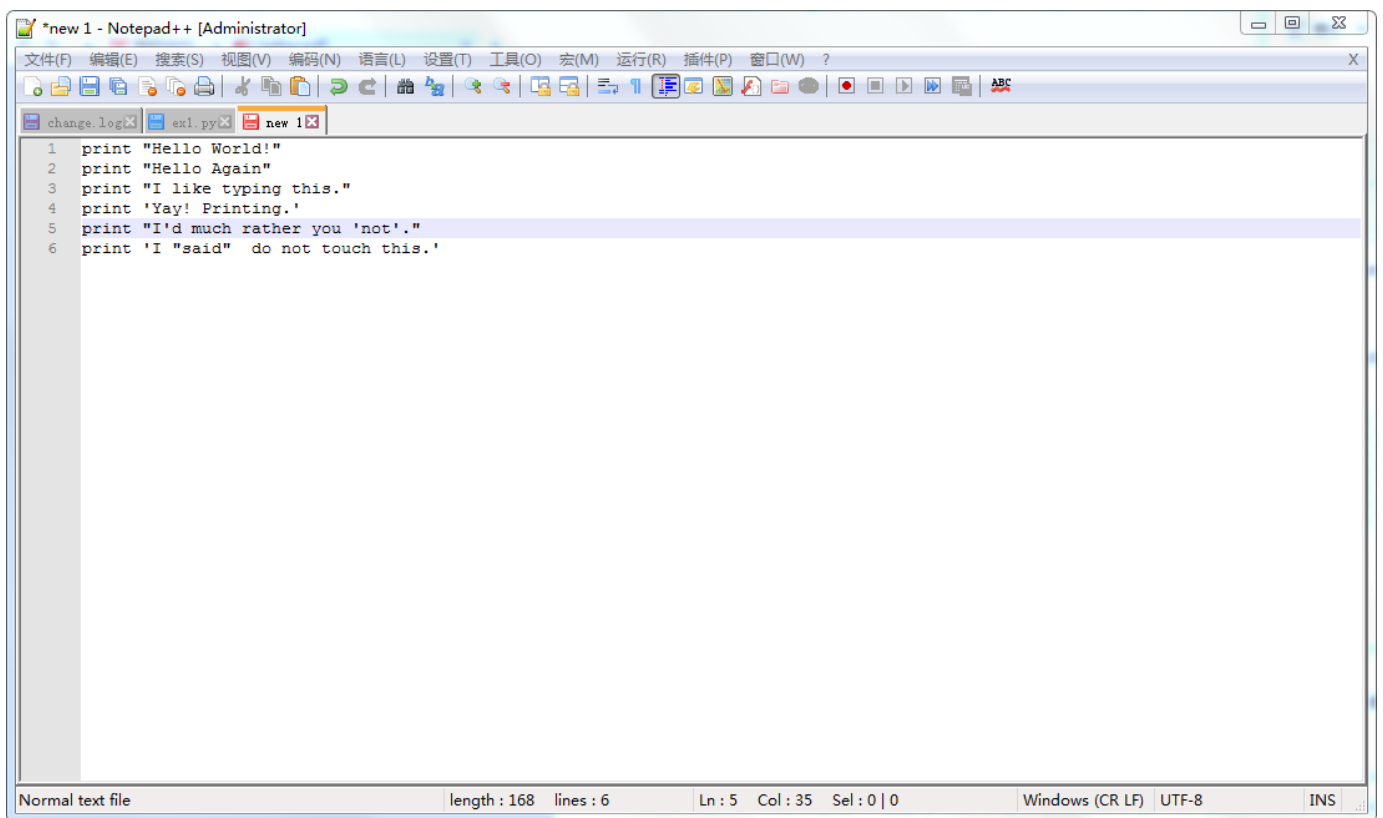

而下载community版本的pycharm就不需要。

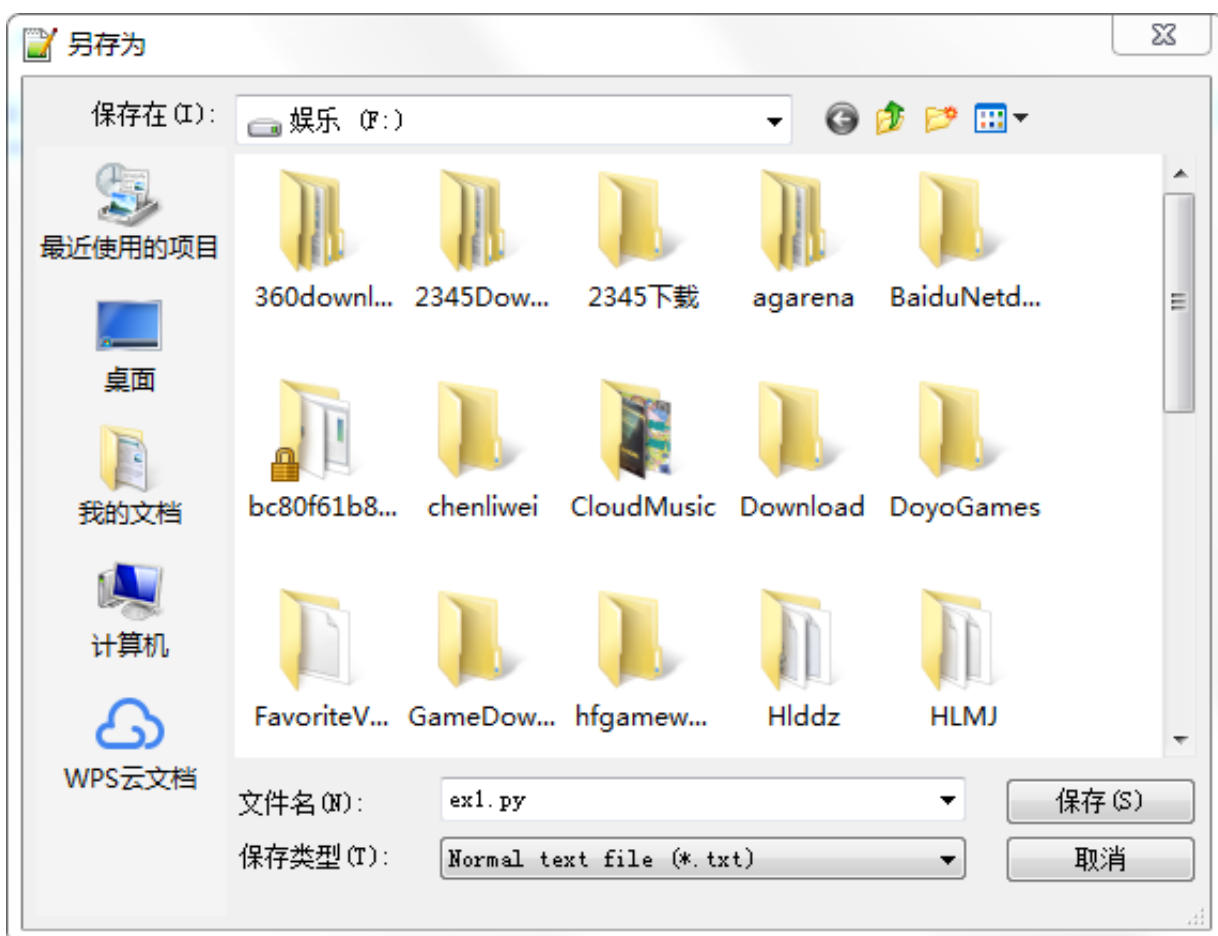

2.练习1

(1)现在notpad++中写下

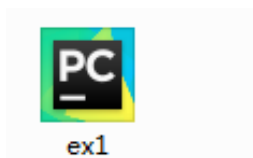

```
print "Hello World!"
print "Hello Again"
print "I like typing this."
print "This is fun."
print 'Yay! Printing.'
print "I'd much rather you 'not'."
print 'I "said" do not touch this.'
```

再通过文件中的另存为放到F盘改名ex1.py

放在F盘后的样子

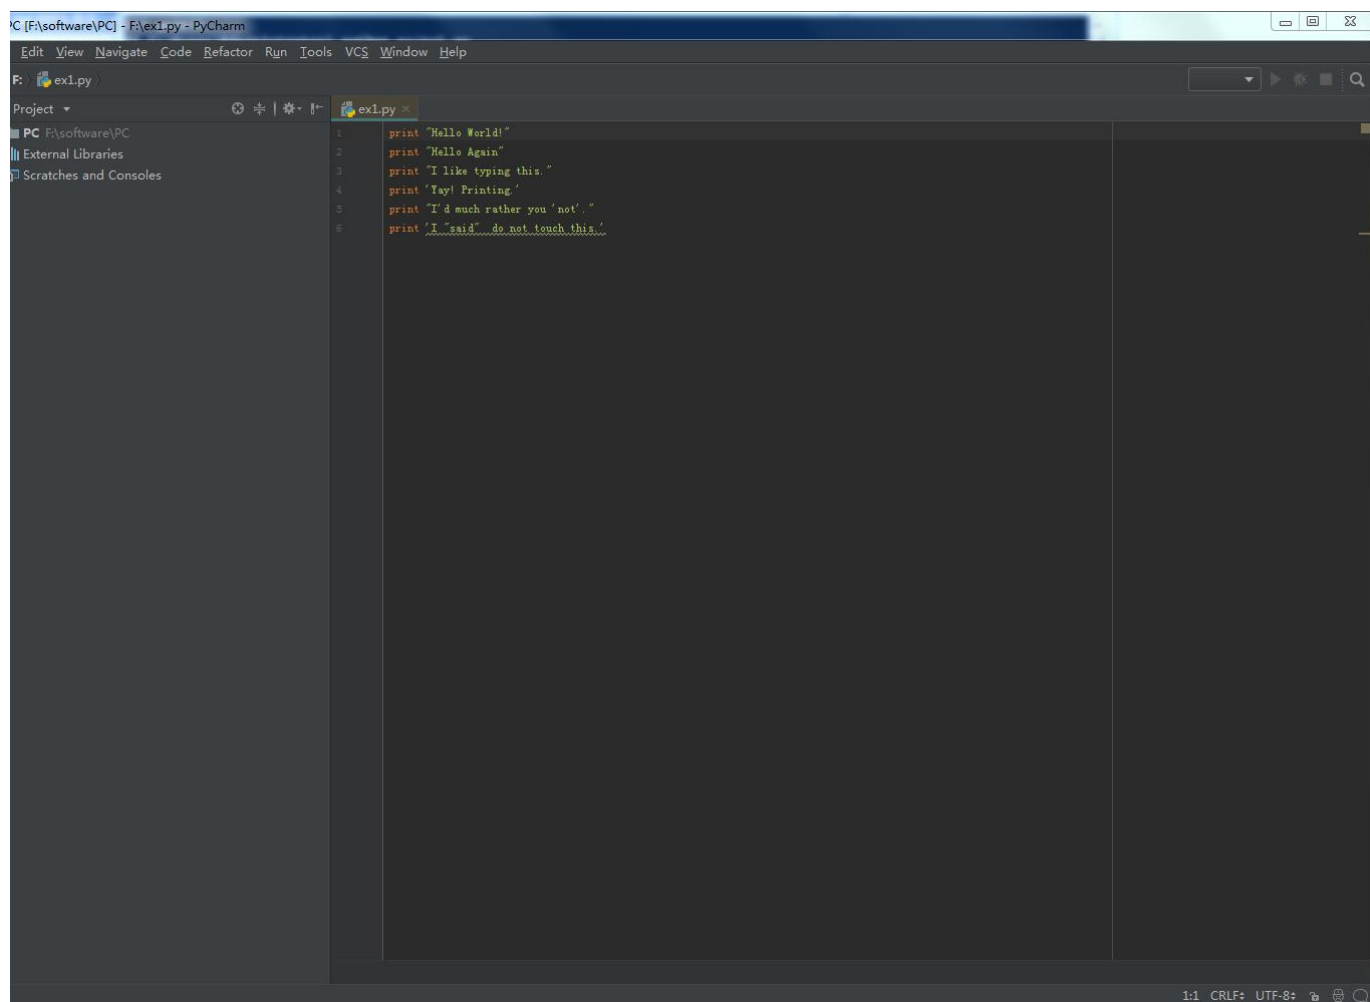

回到终端输入cd f：在终端进入翻盘F盘输入python ex.1py出来

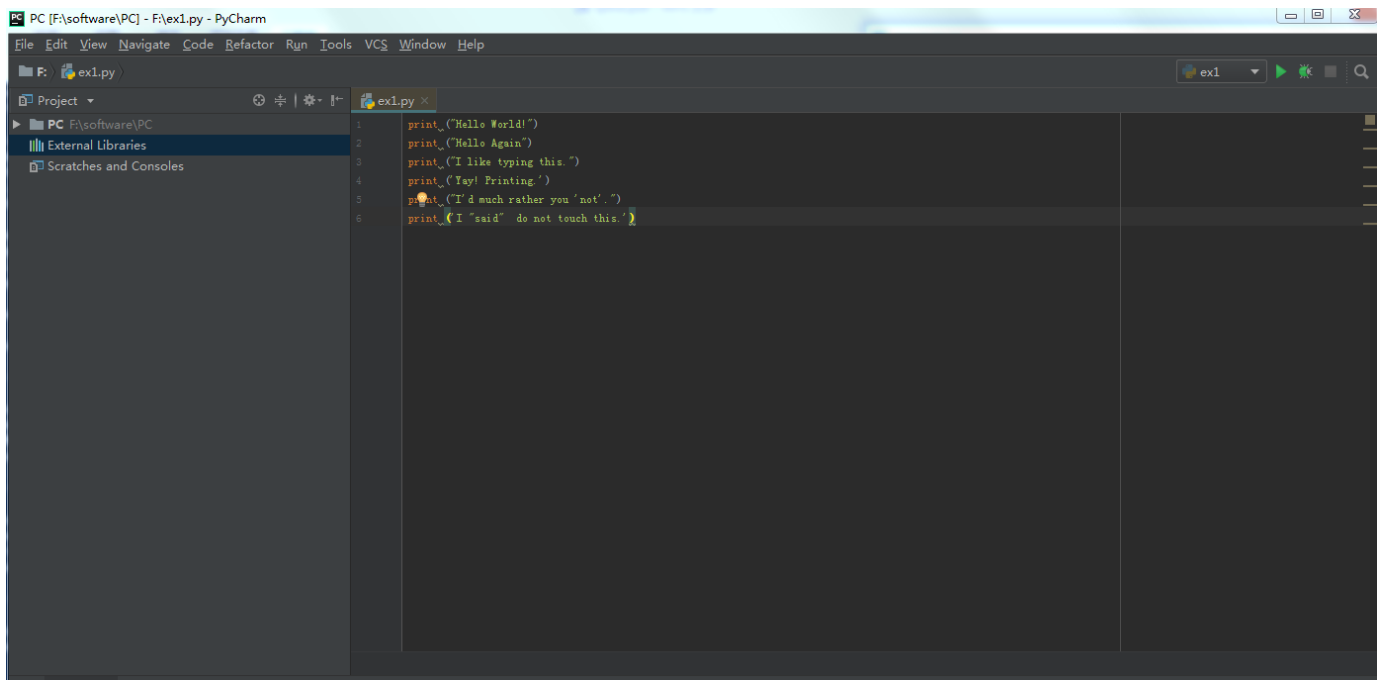

```
PS F:\> python ex1.py
File "ex1.py", line 1
    print "Hello World!"
          ^
SyntaxError: Missing parentheses in call to 'print'. Did you mean print("Hello World!")?
```

意思说明需要加括号

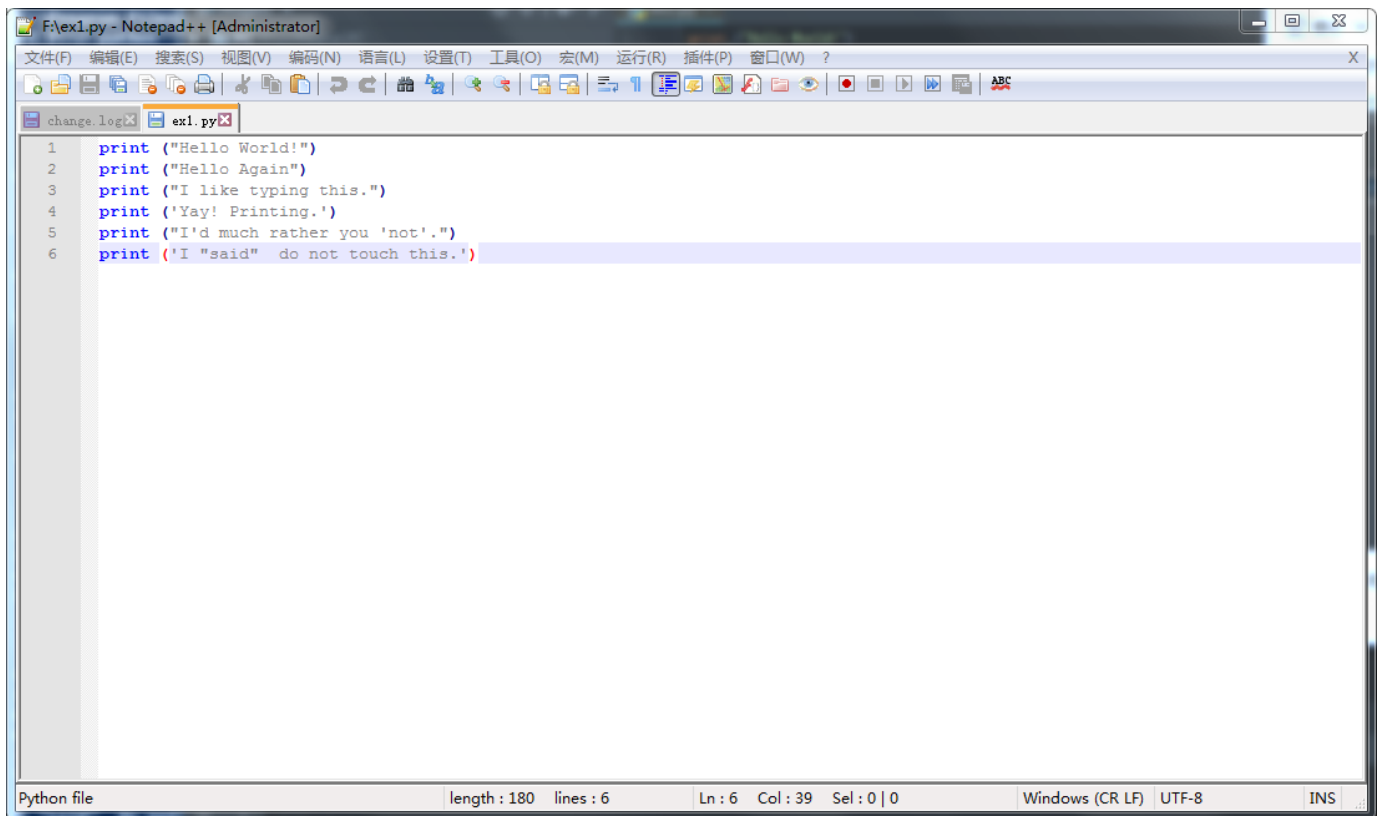

我们可以打开

将里面的代码都改成

随后在notpad++上也会改成

再到终端输入python ex1.py会出现

```
PS F:\> python ex1.py
Hello World!
Hello Again
I like typing this.
Yay! Printing.
I'd much rather you 'not'.
I "said" do not touch this.
```
